To: Patrick Hartley <phartley@lbto.org>, Dan Rapoza <drapoza@lbto.org>, John Prothro <jprothro@lbto.org>, demars@arizona.edu, James Riedl <jriedl@lbto.org>, "Crass, Jonathan" <crass.7@osu.edu>, Mark Smithwright <msmithwright@lbto.org>, Bruce Bingham <bbingham@lbto.org>, David Carroll <dcarroll@lbto.org>, Dan Cox <dcox@lbto.org>

Dear All -

Here are takeaways from this morning's HVAC focus meeting:

- Four drawings from [this drawing set](#) should be reviewed:
 - 4-1B: AIR-SIDE CONTROL P&ID (DUCTED)
 - 4-3B: PARTIAL 50F CHILLED GLYCOL WATER DIAGRAM
 - 5-1B: Sequence of Operation and Control
 - 5-2B: Sequence of Operation and Control (cont.)
- That review should be sufficient preparation for some on site planning.
- Mark, Peter, Dan, James, Jay, and Pat will meet at LBT Monday morning to do that planning.

AI
