Conclusion

LBTO

Rev. Date: 02-Dec-2020
Review

• Plan the work, work the plan. Think safety first!
• Communicate with mountain management often.
• Review work area for hazards (to you or others).
• Follow safety protocols, ask if unsure.
• Stop work if unsafe or unsure.
• Report all injuries, incidents, and near-misses immediately.
• Maintain good housekeeping and safe work practices.
• Be committed to safety: Everyone goes home safe!
Additional Trainings

- The following additional trainings may be required, based on what you plan to do at the LBT:
  - New Visitor Walkthrough (with Telescope Access)
  - Lockout Tagout
  - Fall Protection
  - Arc Flash Electrical Safety
  - Scissor/Boom Lift
  - Forktruck
  - Crane Operator and Rigging
  - Cryogenics and Liquid Nitrogen

Make the safe choice...
